

ASC 100: Freshman Seminar (Teacher Education Section)
Campus Scavenger Hunt

Form a pair or a group of three or four with other students in this class. Make sure that at least one person in the group possesses a device that will take digital photos and that can upload them to a computer.

With your groupmates, conduct a scavenger hunt across campus, finding the locations listed below. At each location, take a photo of your group standing near the sign on the office door or some other feature of the location that will make it clear exactly where you are. One of you will have to be the photographer at each site, but rotate that role so that the same person isn't always taking photos at every location (and thus never being captured in any of the photos).

After you have digital photos of your group at all the sites, upload them to a computer and place them in a PowerPoint presentation with one photo per slide. Give each photo a caption (or each slide a title) that tells the location and that names the people within the photograph.

The PowerPoint presentation is due on Tuesday, September 11. You should e-mail it to me before class so that I have a copy. During class, you will open it and show it to your classmates, so you should bring it to class on a flash drive or else be able to download it that day from an online storage account, if that's your preference.

Here are the sites to find (and pose for photographs at) across campus:

- the art gallery in Klinefelter Hall
- Student Health Services
- Center for Multicultural Affairs
- Office of Financial Aid
- Office of Academic Records or Office of Business Affairs (hint: they're across a hallway from one another)
- Office of Computer Services
- Office of Extended Learning
- Academic Success Center
- University Bookstore (take the photo outside the store rather than inside)
- Alumni and Foundation House
